

THR-110

Digital single-channel type-K thermometer

Digital single-channel type-K thermometer for temperature measurements on contact surfaces or in the air. *ital 1 voie de type-K pour les mesures de températures avec contact ou dans l'air.*

FEATURES

- Contact and airflow measurements for HVAC systems
- Compact and lightweight device with large LCD screen
- MAX/MIN and HOLD functions
- REL function for relative temperature measurements
- Adjustment screw for recalibration at any time

SPECIFICATIONS

- Supplied in a carrying case with two probes: 1x clamp-type contact probe and 1x universal probe for air and immersion measurements
- Measuring range: -200°C to +1370°C
- Resolution: 0.1°C
- Accuracy (excluding probe): 30.3% of reading + 1°C
- Operating conditions: 0°C to 50°C; 0-80% RH
- Dimensions: 164 x 54 x 34 mm
- Weight: 180 g
- 9V battery, up to 150 hours of battery life
