

KIT-ADC-R32

Refrigerant Certification Kit – R32 / R410A Compatible

This kit includes the 5 essential tools required for the F-Gas certification.

TREK-ONE

3/4 hp recovery unit

+

WT-2

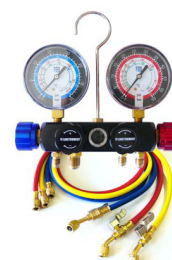

Probe thermometer

+

MG-250-R32

2-way manifold
(R32,R410A)

LT-100-PRO2

Electronic leak
detector

+

ECS-200

Charging scale

SPECIFICATIONS :

- **TREK ONE Recovery Unit:** Equipped with a 3/4 HP compressor, low-pressure switch, and central control valve for simplified operation.
- **MG-250-R32 2-Way Manifold (R32, R410A):** Steel gauge with enhanced visibility, aluminum valves and body. Supplied with a set of 3 hoses with metal valves (two with 1/4" x 5/16" SAE fittings and one with 1/4" x 1/4" SAE fitting).
- **LT-100-PRO2 Multi-Gas Leak Detector:** Compatible with HFC, HFO, HC, and hydrogenated nitrogen; high sensitivity <3g/year.
- **ECS-200 Charging Scale:** Sturdy with a large platform (27 cm x 27 cm).
- **WT-2 Probe Thermometer:** Temperature range -50°C to +200°C – Resolution 0.1°C.
