

AZ-88162

Temperature / Humidity Data Logger

- 24000 points

The AZ-88162 is a reliable and user-friendly data logger for monitoring temperature and humidity in various environments: laboratories, warehouses, storage areas, etc

FEATURES

- Immediate use without software
- Automatically generated PDF or Excel report
- Ideal for sensitive storage monitoring
- High measurement accuracy
- Compact, lightweight, and waterproof

SPECIFICATIONS

- Temperature: -30 to +70°C / Resolution: 0.1°C / Accuracy: 30.5°C
- Humidity: 0.1 to 99.9% RH / Resolution: 0.1% / Accuracy: 35%
- Memory capacity: 24,000 temperature + 24,000 humidity data points
- Interface: USB 2.0
- Dimensions: 110 x 45 x 17 mm
- Weight: 50 g
- Protection rating: IP-65
- Power: 2 CR2032 lithium batteries
