

# LTB-350

## Crossbow tube bender

Designed in the shape of a crossbow, the LINSTRUMENT ratchet tube bender allows one-handed operation on annealed copper or aluminum tubes with diameters from 1/4" to 7/8". Its anodized aluminum formers and blocks make the LTB-350 a precise, reliable, and highly durable tool.

### FEATURES

- Aluminum mandrels and blocks, easy to switch depending on tube diameter.
- Reliable and robust ratchet mechanism.
- Complete kit available for bending tubes of 1/4", 5/16", 3/8", 1/2", 5/8", 3/4", and 7/8".
- Delivered in a carrying case
