

KIT-ADC-MULTI

Refrigerant Certification Kit – All Refrigerants

This kit includes the 5 essential tools required for the F-Gas certification.

TREK-ONE

3/4 hp recovery unit

CORE-550

Bluetooth digital manifold

LT-100-PRO2

Electronic leak
detector

WT-2

Probe thermometer

ECS-200

Scaling charge

CARACTÉRISTIQUES

- **TREK ONE Recovery Unit:** Equipped with a 3/4 HP compressor, low-pressure switch, and central control valve for simplified operation.
- **CORE-550 Digital Manifold :** Measures low and high pressure, calculates superheat and subcooling, vacuum mode and pressure test – IP54 housing, supports 89 refrigerants.
- **LT-100-PRO2 Multi-Gas Leak Detector:** Compatible with HFC, HFO, HC, and hydrogenated nitrogen; high sensitivity <3g/year.
- **ECS-200 Charging Scale:** Sturdy with a large platform (27 cm x 27 cm).
- **WT-2 Probe Thermometer:** Temperature range -50°C to +200°C – Resolution 0.1°C.
