

AZ-8723

Hygrometer with detachable probe

The AZ-8723 is a portable device for measuring temperature and humidity, also capable of calculating dew point and wet bulb temperature.

FEATURES

- Dual display: temperature and humidity
- Measured values: temperature / relative humidity / dew point / wet bulb temperature
- Fast and accurate measurements
- Capacitive sensors
- Detachable wired probe
- MIN, MAX, and RESET functions
- Power supply: 4 x AAA batteries

SPECIFICATIONS

- Temperature: -10 to +60°C / Resolution: 0.1°C / Accuracy: 30.6°C
- Humidity: 0.1 to 99.9% RH / Resolution: 0.1% / Accuracy: 33%
- Dew point: -68 to +49.9°C
- Wet bulb temperature: -13.4 to +59.9°C
- Operating conditions: 0 to +50°C / < 80% RH
- Dimensions: 175 x 70 x 33 mm
