

# LT-300-PRO2

## Premium all gas leak detector

LT-300-PRO2 is a premium all-gas leak detector (HFC, HFO, HC, and hydrogenated nitrogen) designed for the most demanding professionals in refrigeration and HVAC.

### FEATURES

- High sensitivity MOS-type semiconductor sensor
- 2 detection modes: manual and automatic
- 3 sensitivity levels
- Reset function
- Large color display with graphical representation
- Visual and audible alarms
- Rapid and reliable detection of refrigerant gas leaks below 3g/year
- HFC, HFO, HC and hydrogenated nitrogen
- Conforms En 14624-2020
- Quick preheated

### SPECIFICATIONS

- Alarm reminder with LED light at the probe tip
- Robust carrying case
- Power supply: Li-ion battery
- Test vial included
- Compliant with EN-14624
- Maximum sensitivity: < 3g/year
- Quick warm-up: 31 min (5 min to reach maximum sensitivity)
- Dimensions: 320 x 190 x 50 mm
- Weight: 0.5 kg
