

IR-500

Infrared thermometer

Versatile infrared thermometer for fast, contactless surface temperature measurements. Ideal for HVAC/R, electrical, and building professionals.

FEATURES

- Fast, contactless readings
- Compact and portable
- Perfect for hard-to-reach or hazardous areas
- Compliant with professional standards
- Easy to use with no complex settings

SPECIFICATIONS

- Infrared measurement range: -50°C to +500°C
- Distance-to-spot ratio: 12:1
- Emissivity: fixed at 0.95
- Laser pointer: yes
- Fast response time
- Display: digital LCD
- Certification: IEC/EN 61326
