

TREK-ONE

3/4 HP recovery unit

Don't let its compact size fool you. The TREK-ONE recovery station packs all the features you need at a perfectly controlled budget. For example, it includes an internal purge circuit that eliminates the need for an external device to completely evacuate the gas at the end of the operation.

FEATURES

- 3/4 hp dry piston compressor for recovering category III, IV, and V fluids, including R410A.
- Compatible with A2L gases, including R32, thanks to its explosion-proof components
- Central control valve for simplified operation
- Low-pressure switch preset to -0.27 bar, automatically stops recovery when the system is empty
- High-pressure switch preset to 38.5 bar, prevents overpressure in the recovery tank.
- Interchangeable inlet filter to protect the compressor
- Compact and lightweight
- Compliant EN-35421

SPECIFICATIONS

- 220-240V, 50/60 Hz power supply
- Power: 3/4 HP - 1 piston
- Ambient conditions: 0°C to +40°C
- Dimensions: 400 x 250 x 300 mm
- Approx. weight: 13.5 kg

Recovery rate

	R134a	R410A
Vapor		
Liquid	1,60 kg/min	2,20 kg/min
Push-pull	4,60 kg/min	6,30 kg/min
