

# AZ-88160

## Temperature / Humidity Data Logger – 48000 points

The AZ-88160 is a reliable and user-friendly data logger for monitoring temperature and humidity in various environments: laboratories, warehouses, storage areas, etc

### FEATURES

- Doubled memory capacity for extended logging
- Automatic PDF/Excel export
- No installation needed
- Durable and waterproof format
- Ideal for audits or quality inspections

### SPECIFICATIONS

- Temperature: -30 to +70°C / Resolution: 0.1°C / Accuracy: 30.5°C
- Humidity: 0.1 to 99.9% RH / Resolution: 0.1% / Accuracy: 35%
- Memory capacity: 48,000 temperature + 48,000 humidity data points
- Interface: USB 2.0
- Dimensions: 110 x 45 x 17 mm
- Weight: 50 g
- Protection rating: IP-65
- Power: 2 CR2032 lithium batteries
